# Fabric Maintenance

PLEASE CONTACT YOUR RETAILER TO DETERMINE WHICH CLEANING INSTRUCTIONS BEST SUITES YOUR FABRIC

CLEANING CODE #	CLEANING INSTRUCTIONS
1	Clean only with water based shampoo or foam upholstery cleaner. Do not over wet. Do not use solvents to spot clean. Pile fabric may require brushing to restore appearance. Cushion covers should not be removed and laundered.
2	Spot wash briskly with a lukewarm solution of mild liquid soap and water. Rinse thoroughly with clean water to remove soap and then air dry. If spot remains, use a mild detergent and water. Rinse entire cushion or umbrella with clean water and then air dry.
3	To clean, use a mild solution of liquid soap diluted with water.
4	SUNBRELLA FABRICS - Spot clean with upholstery shampoo, foam from a mild detergent, or mild dry cleaning solvent. To prevent soiling, frequent vacuuming or light brushing with a non-metallic, stiff brush to remove dust and grim is recommended.
5	Ultrafabrics® (Lasso) <ul style="list-style-type: none"> <li>• Remove Stain Immediately</li> <li>• Spot Clean with mild soap and water</li> <li>• Air dry or dry quickly with warm setting of a hair dryer</li> <li>• For stubborn stains, use mild solvent</li> <li>• For tougher stains Fantastik® and 409® brand spray cleaner have been shown to be successful</li> <li>• Disinfect with a 5:1 bleach solution</li> <li>• Machine washable – Gentle wash cycle</li> </ul>

Brush off any loose dirt, hose down, and clean with a mild natural soap in lukewarm water. Rinse thoroughly to remove soap. **DO NOT USE DETERGENTS.** For stubborn stains: soak the fabric for twenty minutes in a solution of no more than 4 oz. of **NON CHLORINE** bleach and 2 oz. of natural soap per gallon of water. Following this type of heavy cleaning treatment and when water repellency is a factor, the fabric should receive an application of an air-curing treatment such as 303 Hi-Tech Fabric Guard or similar product. Fabric may be dry-cleaned but a water repellent treatment must be applied to the fabric after dry cleaning to reestablish water repellency. Do not subject to excessive heat, steam press, or dry in clothes dryer.
